

Automatic e-Mail Forwarding Service

Not online? You can still benefit from the marketing power of the Internet. If you cannot receive e-mails... you can ask us to send them to someone that can.

Your customers will generally prefer to contact you by e-mail, even though your telephone and fax number are featured. If you cannot receive e-mails, you are not competing for business on an equal basis with those gite owners that can. You can ask us to forward your e-mails to someone you trust to handle them...

Your customers can e-mail you via someone else. We will issue you with a response e-mail address (thenameofyourgite@gite-holiday-france.co.uk) that will be published on your gite advert's contact section. Any e-mails that are sent to this address, can be forwarded by us automatically, to an e-mail address of your choice... to a friend or relative, for instance, that can receive e-mails on your behalf and who is prepared to handle them for you, but is, otherwise, reluctant to have their e-mail address published on a public web site.

Cost: There is a one-off set-up fee only for this automatic forwarding service, of £15.00 There is no monthly or annual fee.

This automatic e-mail forwarding service is available as an extra when advertising your gite on the Gite Holiday France website. Please tick the appropriate box and add the cost to your remittance, when applying for your gite advert.

Thank you.
